Skill: Memory and Concentration :: Worksheet Number : 119

Directions for Questions from 1 to 3:

Below is given a game of Troyis. The aim of this game is to cover all the white boxes with the horse. The horse cannot park itself in blue boxes but can pass through them. The horse can move in an L-shaped direction only. For example, the horse can move to a box that is two steps right to its current position and one step down. The movement can be clearly understood through the example figure given. The horse in the example figure can move directly to the boxes with a 'Y' from its current position. Based on this information, answer the questions that follow.

Example figure

Q1 - To which of these boxes, the horse can reach in the next move?

a) 3rd column, 3rd row

b) 3rd column, 2nd row

c) 2nd column, 2nd row

d) 1st column, 3rd row

Q2 - In how much minimum number of moves can the game be finished?

a) 3

b) 4

c) 5

d) 6

Q3 - Which of these boxes (including the blue boxes) can never be reached by the horse, if stepping on blue boxes is allowed?

a) 3rd column, 3rd row

b) 3rd column, 2nd row

c) 2nd column, 2nd row

d) 1st column, 3rd row
